

Resurrection-St. Paul School
Technology Acceptable Use Policy (AUP)
2020-2021

1. I will model the RSPS Values Code while using technology.
2. I will demonstrate respectful behavior when using technology at school.
3. I will treat all technology equipment with care and be responsible when using it. If I damage my Chromebook, I am responsible for paying for the repairs or replacing the device at a fair market value price.
4. I understand that school technology equipment is for educational use. Using technology for any other purpose is not permitted (this includes accessing non-school email or any other personal Internet-based account).
5. When using school technology, I will **not**:
 - look at anyone else's work without permission
 - Touch or use anyone else's Chromebook (even with their permission)
 - access anyone else's folder on the Student drive
 - access anyone else's accounts - including Discovery Education, IXL, PowerSchool and Google Apps for Education accounts
 - open, delete, move, copy, or modify another student's work
6. All Internet searches that I conduct will be appropriate for school. I will not search for inappropriate content or access inappropriate sites. I will report to a teacher any inappropriate sites that I observe being accessed by another student or any inappropriate sites that I browse to accidentally.
7. I will not perform unsupervised Internet searches. I will only use designated search engines.
8. I understand that speech that is inappropriate for school is also inappropriate for electronic communications.

9. I will use Discovery Education, YouTube or other streaming applications only with teacher permission and for educational activities.

10. I will act safely when using the Internet. I will not give out personal information such as my full name, email address, phone number, or street address. Additionally, I will not give out personal information about someone else.

11. I will keep my passwords private and not share my passwords with anyone else.

12. I will not attempt to download/install software or apps while using school technology equipment.

13. I will consider the environment when I use technology. I will print the fewest pages possible, and only when necessary.

14. I will use information ethically. I will not plagiarize. I will cite my sources.

15. I understand that the use of school technology is a privilege, not a right. Inappropriate use of technology may result in suspension or cancellation of those rights and other disciplinary measures.

16. I will use technology in accordance with the Archdiocesan Acceptable Use Policy in the 2020-2021 RSPS Parent-Student Handbook.
